

Three Links Care Center

Three Links Care Center prides itself for offering over a century of innovative caregiving in Northfield, having served as a children's home, as the first hospital in Northfield and as the first nursing care facility for the elderly. Through the years our services have focused on serving the elderly in our community.

Three Links Care Center is part of a continuum of senior care which offers Apartment Living, Board and Lodging, Adult Day Care, Home Care and other supportive services within our campus.

Construction and remodeling projects have transformed the Care Center environment, making it a comfortable, cozy and cheerful place. From the warm, cozy fireplace parlor near the front door to the beautiful Atrium Dining Room, guests will experience the hospitality of Three Links. The "house" built within the Care Center creates familiar surroundings for residents to gather. The back deck serves as a bright place for activities, the kitchen offers a place for residents to bake, the dining room table beckons residents and families to stop for a cup of coffee and the living room is a cozy place for a visit.

Resident rooms, whether private or semi-private, are tastefully decorated. We encourage residents to personalize their rooms with a favorite chair, family pictures and other personal items which make it look and feel like home.

Our staff work hard to meet the individual needs of each resident in a caring, respectful manner. Their care is complemented by our community and college volunteers who add special friendships to the lives of our residents.

Services of Three Links

Nursing

Licensed nursing staff on duty 24 hours a day carry out a plan of care for each resident in conjunction with physician's orders. Our certified Nursing Assistants are available to assist residents with personal care needs.

Social Service

Social workers are available to assist residents and families with the admission process and adjustment to the nursing home environment.

Pastoral Care

Spiritual needs may be met through group involvement in Bible studies and church services or through individual visits by our chaplain. In addition, the Northfield Ministerial Association is actively involved in meeting spiritual needs.

Dietary

Our food service staff provide nourishing and attractive meals under the direction of a registered dietician. Special diets are accommodated according to the physician's orders.

Activities

Our activity department offers a well-rounded program of individual and group activities designed to help our residents adjust to their environment in a meaningful way.

Maintenance, Housekeeping and Laundry

These departments maintain a safe, clean environment for our residents, visitors and staff. Personal laundry service is provided at no extra charge.

Physician Services

Prior to admission, each resident must designate a physician who will be responsible for their care. The physician must have admitting privileges at Northfield Hospital. Our Medical Director is responsible for reviewing resident care policies.
